How communities deal with trash and litter is a problem. What is the value of environment when
there is a problem with litter and trash. There should be signs posted about not littering. The
community should be educated so that this issue should not have to be legislated. We can
attract citizens to a "beautiful" city. Children should be addressed about race. They should have a
day in the park and bring all races and religions together. Children should have easy access to the
park, especially during summer months. We need better transportation in the city, like more bike
trails. We should engage kids to go outdoors. They can be involved in nature and meet other kids.
There could be dramatic repercussions otherwise. More cities need programs like Katy Trails and
Rails to Trails.

Citizens have to become educated about issues in a non-partisan way. Elected officials break the law and there are double standards. The public should be informed about issues, ex) they should have access to minutes from meetings. Right now there is an increase in the number of homeless students. How are their needs being met? We have to educate or incarcerate. We should highlight the positives in our community. There needs to be education and promotion for recycling. Recycling is financially beneficial.
